

**CELEBRATE  
YOU**

**Enjoy complimentary Disney PhotoPass® digital  
downloads of your photos from the Service  
Celebration with Memory Maker!**

A complimentary Memory Maker entitlement has been placed on your “Celebrate You” MagicBand! So during the Service Celebration, visit a Disney PhotoPass Photographer to capture memories of your special evening.

Once you activate your Memory Maker entitlement, you’ll enjoy digital downloads of your Service Celebration pictures, as well as any additional Disney PhotoPass photos taken at the Walt Disney World Resort over a 30-day period. Memory Maker also includes select attraction and dining photos, plus extras like Animated Magic Shots and videos from select attractions.

Note that you must be wearing a MagicBand to collect attraction photos from Seven Dwarfs Mine Train and Frozen Ever After, as well as any attraction videos.

**Expiration**

You must download your Service Celebration photos before they expire! Like all Disney PhotoPass photos, your Service Celebration photos/videos will expire 45 days after they are taken.

The expiration date for each photo is shown in the bottom right corner of the photo.

While you have 30 days to capture photos that can be downloaded as part of your Memory Maker entitlement, those photos can be downloaded any time prior to their expiration.

**If you have any questions about your Memory Maker entitlement, please call the Disney PhotoPass Guest Support Team at 407-939-1950.**

**To activate your Memory Maker entitlement and retrieve your complimentary Disney PhotoPass digital downloads from the Service Celebration, please follow these steps:**

**Set up**

If you do not have a My Disney Experience account, please visit [Disneyworld.com](http://Disneyworld.com) to create an account.

**Link**

Your complimentary Memory Maker entitlement has been associated to the “Celebrate You” MagicBand you received at the Service Celebration.

Therefore, that MagicBand must be linked to your My Disney Experience account in order for you to activate and use your Memory Maker entitlement (and see your photos from the Service Celebration).

To link your Service Celebration MagicBand to your My Disney Experience account, please visit [Disneyworld.disney.go.com/link](http://Disneyworld.disney.go.com/link) to add that MagicBand to your account.

**Associate**

After taking pictures with a Disney PhotoPass Photographer, he/she will scan your MagicBand to associate the photos to that MagicBand.

If you wear a linked MagicBand while on select attractions, those attraction photos will be automatically associated to your My Disney Experience account.

Please note that no photos you associate to your MagicBand will appear in your My Disney Experience account until you link that MagicBand to your account.

**View/Activate**

View your Disney PhotoPass photos at [MyDisneyPhotoPass.com](http://MyDisneyPhotoPass.com), or by clicking “PhotoPass” in the My Disney Experience mobile app.

You will need to activate your Memory Maker entitlement in order to download your Disney PhotoPass photos. You can do so by selecting a photo with a watermark on it and choosing “download,” then confirming activation of the Memory Maker entitlement. This action will remove the watermarks from all photos in your account and begin your 30-day capture window.

If a Disney PhotoPass watermark still appears on your Service Celebration photos, it means you have not yet activated your Memory Maker entitlement.

**Download**

Once you download your first photo or otherwise redeem your Memory Maker purchase, you then have 30 days to capture more photos as part of your Memory Maker entitlement.

You can download each photo and other digital content individually, or you can click the “Download All” button on [MyDisneyPhotoPass.com](http://MyDisneyPhotoPass.com).

After activating your Memory Maker entitlement, you can also download and share your Disney PhotoPass photos through the My Disney Experience mobile app.
